

11 December 2017

Dear Parent/Carer

Year 10 into 11 Guided Pathways

You will remember from the Year 8 into 9 Options Evening and Option Booklet that the measure of a student's overall performance at Key Stage 4 changed in 2016. This new measure is called Attainment 8. Alongside this new overall measure, good grades in GCSE English and maths will continue to be important in their own right.

My letter to you now is simply to reassure you that, through both our new curriculum and our highly successful intervention strategies, we are in a good position to support students in achieving the best possible portfolio of qualifications.

Please find attached, should you require more detail, an information sheet about:

- Attainment 8
- The Outwood Year 11 curriculum
- Our advice and guidance process ready for Year 11.

We will also be holding a Year 10 into 11 Parents Information Evening on Wednesday 20 December 2017, starting at 5.45pm in the Auditorium.

This information evening will be held alongside our "Prepare to Do Well" event for Years 10 and 11 which aims to provide you and your child with a variety of techniques for revision in the run up to the GCSE examinations in 2018. There will be a focus on tried and tested revision techniques to help enhance the performance of your child in these examinations. You are welcome to attend this event from 5.00 pm in the foyer of the Arts Centre which will involve a carousel of activities as well as revision tips and techniques. Your child will also receive a free revision pack with subject specific resources, stationery and more.

If you would like to attend this event please use the link below to book tickets for each member of your party on Eventbrite. You will need a copy of your Eventbrite ticket upon arrival, this can be in electronic or in paper form.

Year 10 into 11 Guided Pathways – Information Sheet

At the Year 8 into 9 Options Evening, back in January 2016, we explained how a student's overall Key Stage 4 performance would be measured and we briefly described the Year 11 curriculum model. This is a reminder of those points.

What will the curriculum at Outwood be in Year 11?

In Year 11, students will continue to study GCSEs in maths (4 hours per week), English Language and English Literature (5 hours) and science (6 hours). Students in Year 10 taking GCSEs in Geography, History, French, Spanish and Computer Science will now continue these through into Year 11 – we communicated this change to you in January 2016. They will also have 1 hour of physical education. In addition to these, and factoring in subjects that will be taken at the end of Year 10, students will be guided towards the study of further subjects in Year 11 to complement their existing qualifications. By providing students with a broad and balanced curriculum, and supporting them to achieve the highest possible grades, our aim is to ensure that they have the best possible life chances. Our Guided Pathways process supports this vision.

What is the new government measure for students?

From 2016, the government introduced a new method of gauging a student's overall performance in their Key Stage 4 exams. This new Level 2 Threshold uses a method called Attainment 8. Two examples of how Attainment 8 works can be found on the reverse of this letter. Up to 2015, the Level 2 Threshold for students and schools was 5 or more GCSEs, including English and maths, at grades A*-C. This measure was used by many colleges, apprenticeships, employers and universities in their admissions criteria, to determine the suitability of candidates for particular courses or jobs. We believe it is important to work with students to achieve good outcomes on both Attainment 8 and English and maths.

For information, students will still receive certificates which have a grade on them to show their final result for each subject. This is unchanged from previous years.

How will Outwood help and guide students?

In January 2018, as part of the guided pathways process, students will have a meeting with a member of the academy's Senior Leadership Team to discuss courses for Year 11. Parents and carers are welcome to attend this meeting; appointment times will be given to students in advance. Discussion will be on-going during Year 10 as the option blocks take shape, with final decisions regarding courses being made in July 2018.

What intervention will Outwood use to ensure all students are successful?

We have tailored our curriculum to ensure that every student has the opportunity to obtain a good Attainment 8 score and can achieve good grades in English and maths. Some students may need to take additional English and/or maths and/or science to help them achieve their best possible grades in these key subjects. We believe that for some students this is the right course of action and would ask that, should this be the case, you work with us to help your child to see that this is a positive opportunity.

And finally ...

Rest assured, we are committed to equipping all our students with the Key Stage 4 qualifications needed to ensure that they have the best possible chance of success in the next phase of their life.

Attainment 8 for students

Bucket	Slot	Subject	Notes	Weighting
1	1	English	For English – can be Language or Literature – best grade double counted, but only if both taken	X 2
	2	Maths		
2	3	EBacc 1	EBacc = English Baccalaureate subjects From - GCSE Sciences, including GCSE Computer Science; GCSE Geography; GCSE History; GCSE MFL	X 1
	4	EBacc 2		
	5	EBacc 3		
3	6	Other 1	From - approved vocational courses, further EBacc subjects, other GCSE subjects	X 1
	7	Other 2		
	8	Other 3		

Notes:

The highest grades, for each 'bucket' of subjects, are the ones that contribute towards the Attainment 8 total score. The total score (see examples) is a student's Attainment 8 score. Sometimes this will be divided by ten to give an average score per slot/per subject. Note, the total is always divided by ten, even if a student has some slots empty – ten because two of the eight grades can be doubled. We believe the key here is, wherever possible, to ensure all slots have grades in.

As GCSEs are reformed over the next few years, there will be a combination of 9-1 and A*-G grades.

GCSE grades in A*-G subjects will have equivalent scores with G=1, F=1.5, E=2, D=3, C=4, B=5.5, A=7, A*=8.5
Point scores for BTEC Level 2 grades are PASS=4, MERIT=5.5, DISTINCTION=7, DISTINCTION*=8.5

The government has indicated that, where in the past a grade C was classed as a 'good' pass grade, a grade 5 will now be classed as a 'strong' pass grade and grade 4 as a 'standard' pass grade.

Examples

Student 1

Subject	Grade	Score	Notes
GCSE Maths	6	12	Maths is doubled ($6 \times 2 = 12$)
GCSE English Language	8	16	Doubled ($8 \times 2 = 16$) - the student has also taken English Literature
GCSE History~	4	4	EBacc slot 1
GCSE Combined Science~	7	7	EBacc slot 2
GCSE Combined Science~	7	7	EBacc slot 3
BTEC Construction	Pass	4	
GCSE Computer Science~	3	3	
GCSE English Literature	7	7	
Total		60	Divided by 10 = average grade 6.0 (between a grade B and A)

Student 2

Subject	Grade	Score	Notes
GCSE Maths	7	14	Maths is doubled ($7 \times 2 = 14$)
GCSE English Literature	9	18	Doubled ($9 \times 2 = 18$) - the student has also taken English Language
GCSE French~	8	8	EBacc slot 1
GCSE Physics~	7	7	EBacc slot 2
GCSE Chemistry~	6	6	EBacc slot 3
GCSE Business Studies	A	7	
GCSE English Language	7	7	
Empty slot		0	
Total		67	Divided by 10 = average grade 6.7 (between a grade B and A)

~These are EBacc subjects – a student's best three EBacc grades contribute towards their Attainment 8 total score

Further examples:

An Attainment 8 score of 50 represents an average grade of 5 (between a grade C and B)

An Attainment 8 score of 33 represents an average grade of 3.3 (between a grade D and C)
