KS4 Guided Pathway Information

We are pleased to attach the Guided Pathway information booklet for Years 9-11 at Outwood Grange Academy.

At Outwood Grange Academies Trust we firmly believe that all children, irrespective of their starting point, are entitled to a broad and balanced curriculum which will enable them to succeed both whilst at the academy and in later life. To that end we are delighted to offer an innovative curriculum, which enables any student within our academies to fulfil their potential and develop the all-important knowledge, skills and qualities which will serve them well in later life.

As you will be aware, qualification courses in our curriculum are run over three years (9, 10 and 11), rather than the two years (10 and 11) which were traditionally advocated. This additional year is one of the hallmarks of our Trust. This, along with the permanent, supernumerary subject specialist directors of English, maths, science, humanities, modern foreign languages, computer science and the arts, who work across all of our academies, are key to helping the teachers within each academy to add the maximum value that we can to your child's education.

In addition to these important subject specialists, we also deploy specialists in Special Educational Needs and Disabilities and Attendance; regular attendance, especially throughout Years 9-11, is critical to your child's success.

A further feature of our Years 9-11 curriculum is the flexible Guided Pathways, which, alongside a core entitlement, make up the broad and balanced range of subjects on offer. In the attached booklet you will see that the core subjects: GCSE English Language and Literature, GCSE mathematics and GSCE sciences (combined science or biology, chemistry and physics) are taken by all students alongside non-examined courses in physical education and personal, social, health and religious education (currently called the Life programme). Students then have three subjects to choose as part of their Guided Pathways allocation, to start in Year 9. To allow students to spread the examination load and help them achieve a balance in their studies, up to two of these can be studied and taken at the end of Year 10. This early entry option also helps students prepare for the further examinations that they will take at the end of Year 11 and can often be a real turning point in students' education. In addition to this, we will advise and support some students who may require extra time in GCSE mathematics, by offering extra time on this core subject within the Guided Pathways. In Year 11, there will be a further opportunity to have additional time for GSCE English and/or mathematics, for those who need it.

We do this in the full knowledge that further and higher education, as well as many employment opportunities, require students to have attained a high level in literacy and numeracy (GCSE grade 5, known as a 'strong' pass, or higher). Furthermore, we fully support the entitlement that students have to study the group of qualifications which the government calls the English Baccalaureate (EBacc): one English, mathematics, two sciences, one humanities subject (geography or history) and a modern foreign language. To both support attainment in this important group of subjects and promote a broad and balanced curriculum for your child, we require all students to study at least one of these Guided Pathway subjects (geography or history or a modern foreign language), which will be taken over the entire period of Years 9-11. For many students it will be appropriate that they also study a second EBacc subject so that they can attain the Full EBacc which, increasingly, higher education establishments are looking for. We will advise you if we believe that your child should be following this route and as always, provide specialist independent careers advice to ensure that you have access to impartial support during this process.

We understand that this is a crucial time and the choosing of qualification courses is very important. You will find further information about support available to you later in this booklet, including details of the Guided Pathway Information Evening.

Whatever your son or daughter is hoping to study, and then do in later life, I am sure that you will find the Guided Pathway process helpful, in the full knowledge that our sole aim is to put Students First: raising standards and transforming lives.

Making the Choice

In general terms, what does the curriculum look like?

The timetable week contains 25 x 1 hour periods; plus, Vertical Mentor Group time.

This 25 period week is split into compulsory Core subjects and Guided Pathway subjects.

	Year 9	Year 10	Year 11
Core	English 5 hrs Maths 4 hrs Science 4 hrs PE 2 hrs RE/LIFE 1 hr	English 5 hrs Maths 4 hrs Science 4 hrs PE 1 hr RE/LIFE 1 hr	English 5 hrs Maths 4 hrs Science 6 hrs PE 1 hr
Guided Pathways	<p>Students can choose three subjects from a list of courses</p> <p>>> EBacc subjects (see list below / over page) will be completed at the end of Year 11 and given three hrs per week in Year 9, two hrs per week in Year 10 and three hrs per week in Year 11.</p> <p>>> Other subjects will be completed at the end of Year 10 and given three hrs per week in Year 9 and four hrs per week in Year 10.</p> <p>The expectation is that all students will study at least one EBacc subject in Year 9/10/11; and that many will study for the full EBacc (1x MFL and 1x Humanity).</p>		<p>In Year 11 students will choose subjects to fill up to 6 hrs of Guided Pathway time.</p> <p>Depending how many EBacc subjects a student is studying in Year 9, they will have either 3 or 6 hrs of Guided Pathway time available in Year 11 (see below).</p> <p>This time could be used to pick up a new subject or consolidate performance in the key subjects of English, maths and science.</p>

	Year 9	Year 10	Year 11	
Possible Pathways	3xEBacc (Incl Full EBacc)	Choice 1 = 3hrs EBacc Choice 2 = 3hrs EBacc Choice 3 = 3hrs EBacc	2hrs EBacc 2hrs EBacc 2hrs EBacc +4hrs accelerated subject # or consolidation	3hrs EBacc 3hrs EBacc 3hrs EBacc
	2xEBacc (Incl Full EBacc)	Choice 1 = 3hrs EBacc Choice 2 = 3hrs EBacc Choice 3 = 3hrs Other (The other choice could be Option Maths in Y9 & 10)	2hrs EBacc 2hrs EBacc 4hrs Other # +2hrs accelerated subject # or consolidation	3hrs EBacc 3hrs EBacc +3hrs Guided Pathway
	1xEBacc	Choice 1 = 3hrs EBacc Choice 2 = 3hrs Other Choice 3 = 3hrs Other (One of the other choices could be Option Maths in Y9 & 10)	2hrs EBacc 4hrs Other # 4hrs Other #	3hrs EBacc +6hrs Guided Pathway

Courses completed at the end of year 10

Guided Pathway Courses

The option courses which students can choose from, to start in Year 9 are:

Students to choose three subjects (plus two reserves) from these lists	
Students need to choose at least one subject from this list	
<p>History (GCSE)</p> <p>Geography (GCSE)</p> <p>French (GCSE)</p> <p>German (GCSE)</p> <p>Spanish (GCSE)</p>	<p>Art (GCSE)</p> <p>Textiles (GCSE)</p> <p>Computer Science (GCSE)</p> <p>Creative iMedia (OCR National)</p> <p>Engineering (Tech Award)</p> <p>Religious Studies (GCSE)</p> <p>Graphics (GCSE)</p> <p>Hospitality & Catering (Vocational Award)</p> <p>Child Development (OCR National)</p> <p>Music (GCSE)</p> <p>Drama (Tech Award)</p> <p>Dance (GCSE)</p> <p>Enterprise (Tech Award)</p> <p>Sport & Coaching Principals (Vocational Award)</p>

Change to GCSE Grades

Grades in all GCSE subjects are now graded 9-1; with 9 being the highest grade. Approximate grade comparator:

New GCSE Grade	1	2	3	4	5	6	7	8	9
Current GCSE Grade	G	F	E	D	C	B	A	A*	

Terminology that may help you and your child

Core	These are compulsory subjects: English, maths, science, PE, RE/Life
Guided Pathway Choices	There is an element of choice about which of these subjects to study
Level 1	GCSE grades 3-1 or equivalent (grades 3-1 have replaced grades D-G at GCSE)
Level 2	GCSE grades 9-4 or equivalent (grades 9-4 have replaced grades A*-C at GCSE) with grades 5+ being classed as strong pass grades
Level 3	A Level grade A*-E or equivalent
GCSE	A course graded 9-1. These are assessed mainly or solely by examination (see individual subject guides for further information)
BTEC / OCR National / Technical Award	Vocational qualifications, graded pass/merit/distinction/distinction*, and equivalent to a GCSE. Mostly portfolio/coursework based, with an exam element (see individual subject guides for further information). Designed to equip students with applied knowledge and associated practical skills; and closely aligned with the world of work
Facilitating Subjects	The Facilitating Subjects are: maths, English, sciences (including computer science), geography, history and modern foreign languages. Please see link below regarding the value placed on these subjects
Full EBacc (EBacc = English Baccalaureate)	For students to achieve the Full EBacc they must attain GCSE grade 5+ in maths, English, at least two sciences, one of history or geography and a modern foreign language

<http://russellgroup.ac.uk/for-students/school-and-college-in-the-uk/subject-choices-at-school-and-college/>

What sort of future planning should students be doing?

Where possible, if students have a goal to aim for, this can help focus their choice of courses. Having said that, we fully understand that many students will either not have a career path planned out or may change their plans. Our curriculum has the flexibility to accommodate this and we would also encourage students to choose a broad range of qualifications over Years 9-11, to keep their future options open.

Attainment 8

The government has set a new Level 2 Threshold measure called Attainment 8. Attainment 8 is starting to become part of the admissions criteria for some further or higher education establishments and employment; as previous measures have, for example 5+ A*-C. A student's Attainment 8 score not only indicates their average grade, it also demonstrates performance across a range of subjects. It expects students to have achieved best possible grades in:

- GCSE Maths and GCSE English
- Any three GCSE qualifications from the Sciences, geography, history or modern foreign languages
- A further three qualifications which can be either BTEC/OCR National/Technical Award, GCSE or other approved qualifications

We will therefore support students in the core curriculum and through their Guided Pathway choices to achieve this threshold.

Frequently Asked Questions

What if students cannot do their chosen course?

We build the Guided Pathway subject blocks based on student choices rather than ask them to pick from pre-determined blocks, so we hope that the courses offered will be available to all the students who want them but we will ask you to give us two alternative/reserve choices.

Despite every effort to give all students their preferred choice, this may not always be possible. Alternatives may have to be considered if:

- Too many students opt for a particular course
- Too few students select a particular course
- We wish to advise a better range of courses to meet a student's needs
- Combinations of courses are chosen which don't work once the blocks have been created

We will write to you in the summer term to confirm your choices.

Can students change their mind?

We always do our best to ensure that all students' choices can be matched but please bear in mind that students who submit choices after the deadline may not find it possible to be placed on their first choice courses. As soon as the options deadline has passed, work begins on timetabling. Alterations to choices may not be possible from this point onwards.

Once a decision has been made and a course begun, it is extremely difficult to make any changes. It is therefore essential that time and thought be given to the combination of courses to be taken.

What support is available to help decide which Guided Pathway subjects to take?

1. Subject staff will be available at the Year 8-9 Guided Pathway Evening on Tuesday **22 January 2019 6pm-8pm** to discuss courses
2. A careers advisor will also be available on this evening
3. Students are welcome to discuss course choices in relation to their future career plans and current level of performance with subject and VMG staff during the academy day, over the next few weeks

Option English and Maths

One of the core values of the Trust is to focus on raising standards, particularly in the basic skills of Literacy and Numeracy. As mentioned already in the introduction, we may identify some students who would benefit from using Year 9 and 10 Guided Pathway time to improve their GCSE Maths grade by studying extra maths. These students will study two Guided Pathway subjects in Year 9 and 10 alongside Option Maths. The academy reserves the right to make this decision where we feel it will be in the best interests of the student. Where this applies, students and parents will be kept fully informed and we would ask that you work with us to help your child see that this is a positive opportunity to improve their life chances.

Further opportunities for improving English, maths and science grades will be available in Year 11; performance reviews and discussions will take place during Year 10, ready for new cohorts starting in Year 11.

Filling in and submitting the form

When you fill in the form it is important to put your choice in order with your most preferred choice first and it is equally important to think about the order for your next choice of subjects. Your option choices are checked against what staff might recommend for you. If you do not fill in the form fully there may be a delay in your options being submitted.

Deadline for handing in the form

The deadline for completing the form is **Friday 1 February 2019**. You can complete your option form earlier and submit it before the deadline closes but this does not mean that your options choices will be considered ahead of anybody else. All options will be dealt with after the closing date.

What happens next?

We will collate your option choices and then confirm the choices you selected by letter in the Summer term. If there are any problems with your choices we will speak to you as soon as possible.

Important dates

Tuesday 22 January 2019 - Guided Pathway Evening, 6pm-8pm.

Deadline for Guided Pathway choices forms to be returned:

Friday 1 February 2019

Forms to be returned to VMG Mentor or Learning Managers' office

Careers Education & Guidance Programme

The careers education and guidance programme at Outwood Grange Academy seeks to positively support you to acquire the educational, social and employability skills necessary for lifelong success in a diverse and changing world of work.

As an academy we are currently working with CareersInc.

CareersInc is an external, independent and impartial careers guidance service who will support you to aim high in your career goals and aspirations.

Together with staff from CareersInc we will support your career development in a number of ways including:

- information and discussion in lessons and assemblies to help you make decisions about your future
- activities and events such as careers fairs
- access to career advisors in a variety of ways
- being available for open evenings and results days
- careers information and IT based careers programmes
- information and updates on notice boards, plasma screens and website.

Should you wish to book an appointment with a Careers Advisor you can do this by booking an appointment through your Learning Manager.

In addition to the support and guidance available to students, there is also a wealth of information available on the Academy website. Please follow the career links.

Connecting GCSEs to Careers

To help you to start thinking long-term you will find information below that connects each GCSE option to some of the careers they relate to including the skills you will develop.

Remember - if you choose a GCSE it doesn't necessarily mean you'll end up with a career relating to it. It's never too early to start thinking where your skills and interests could lead you.

Subject	EBACC	Basket	Future Prospects	Careers / Job Titles	Skills
English	Y	I	GCSE English is vital for a whole range of employment options, college and university courses. For most jobs, employers will look for good communication skills, both written and spoken, and the ability to read with insight and understanding.	Barrister Teacher Politician Solicitor Journalist Writer Actor / Actress Counsellor Social Worker Public Relations Officer Librarian Psychologist	<ul style="list-style-type: none"> • Written and verbal communication • Information handling • Planning essays, reports and projects • Persuasion • Negotiation • Presenting points of view • Research

How to make your choice of options

1

- Read the booklet
- Consider all options on offer
- Think about the EBacc subjects
- Think about your strengths and how the subjects on offer will match these

2

- Discuss your ideas with parents/carers and staff
- Be prepared to change your mind based on advice from parents/carers and staff
- Make good use of the option booklet and discuss with staff before the options evening

3

- Attend the options information evening to discuss your options
- Staff will look at your option choices and make sure these are right for you
- Your choices will be passed to subject staff to confirm you are right for that specific course

4

- Complete the options form
- Make sure you list your choices in order of preference
- Make sure you have done this with your parent/carer
- Complete the form by 1 February 2019

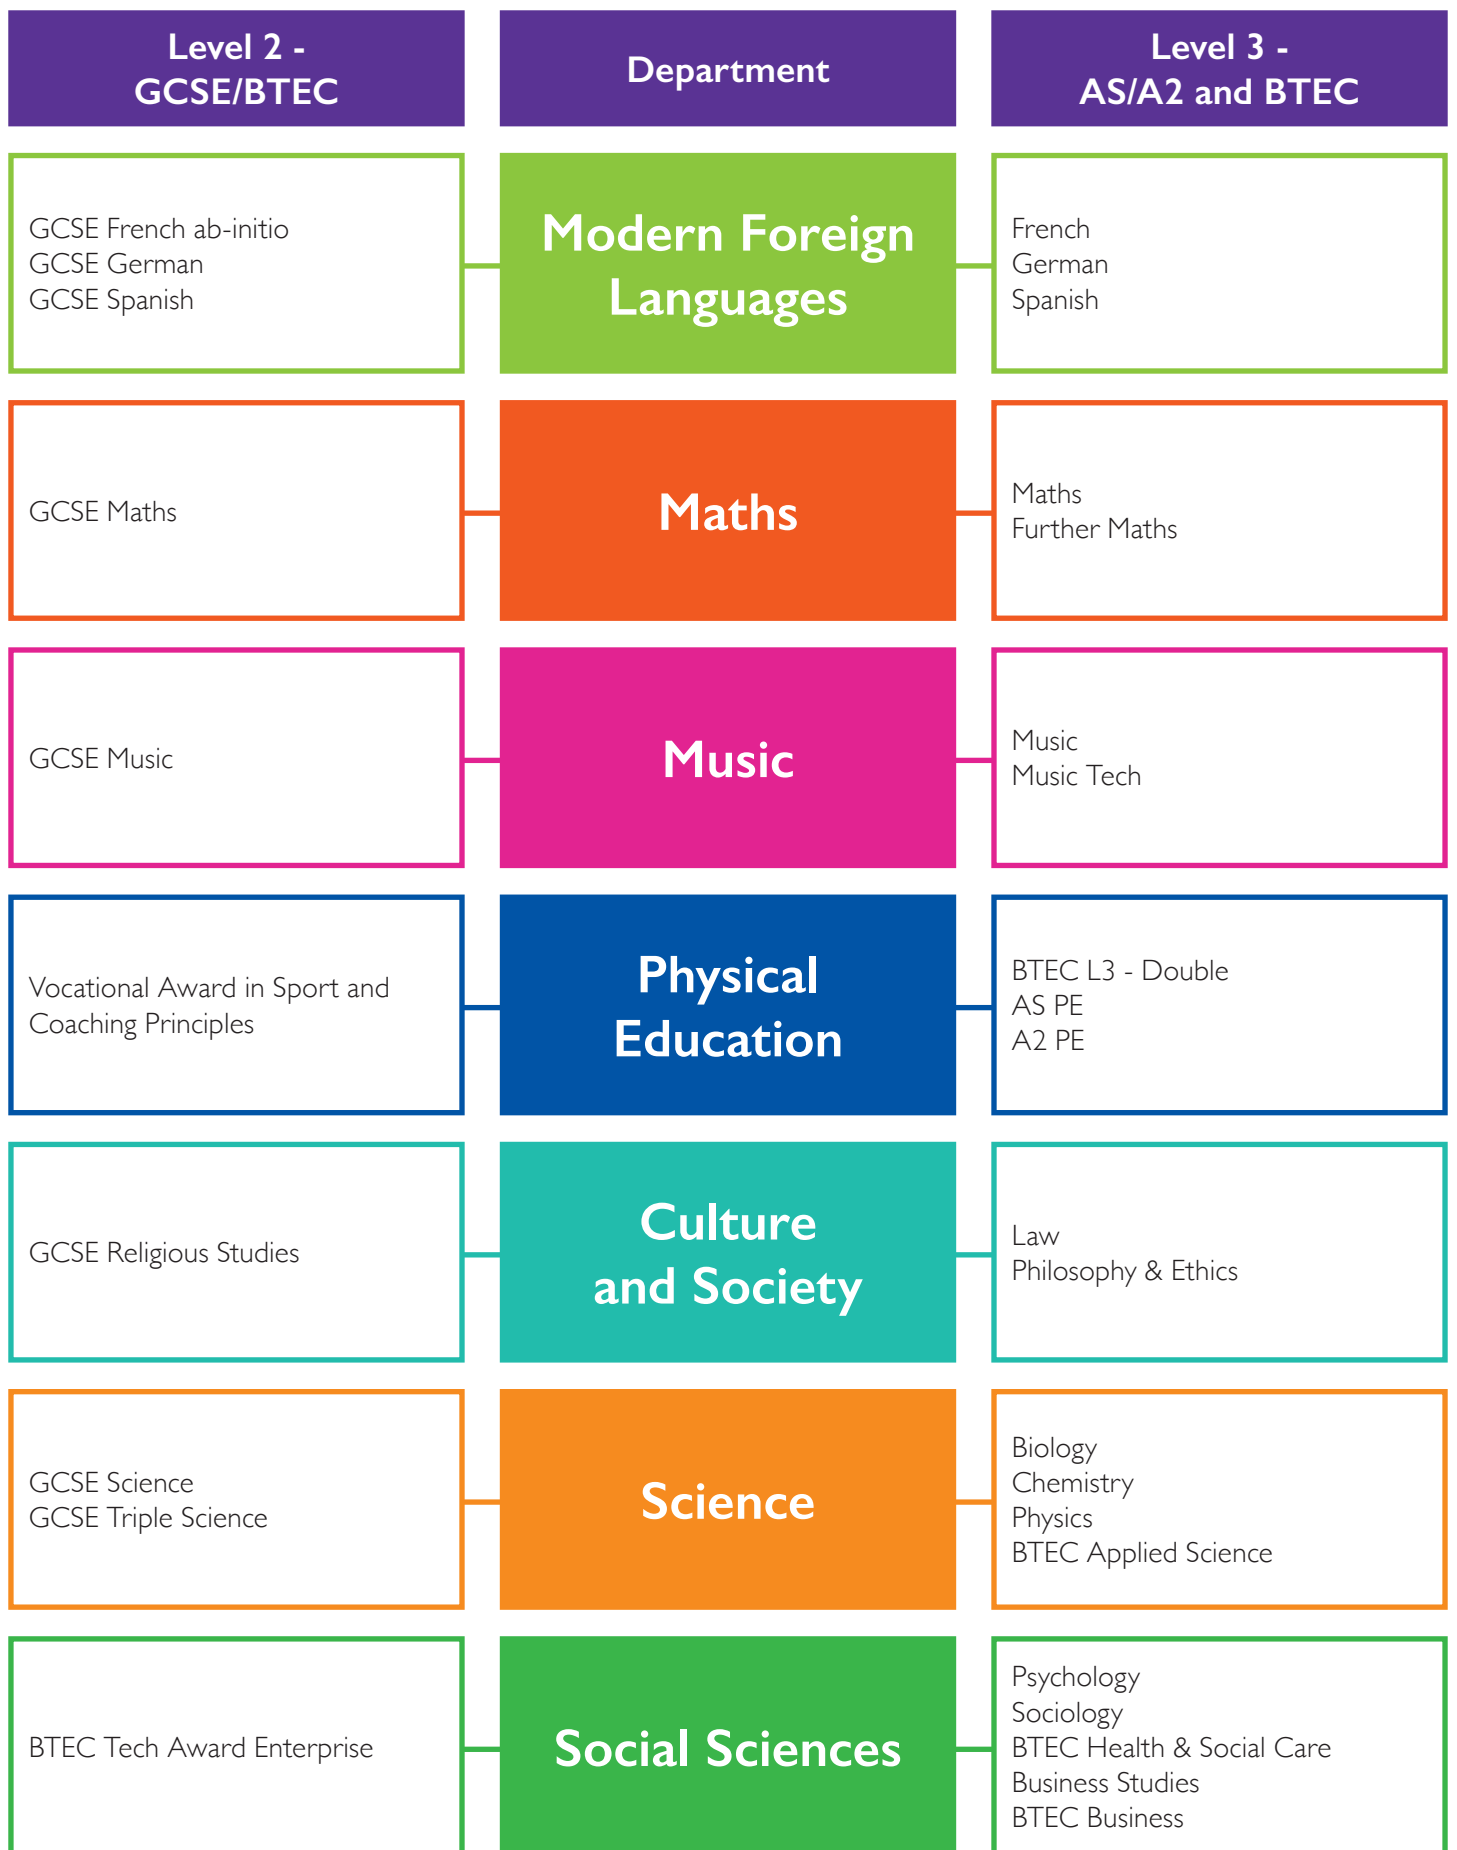

5

- The Academy will confirm your successful option choices
- This will be sent to you in the Summer term 2019

14-19 Pathways through Outwood Grange Academy

The information below shows subjects grouped at GCSE and Post 16 courses. Not all GCSE and BTEC courses in each group lead directly onto the Post 16 course - more guidance on this should be sought from subject leaders.

Level 2 - GCSE/BTEC	Department	Level 3 - AS/A2 and BTEC
GCSE Art and Design GCSE Photography (Year 11)	Art	Fine Art Photography
GCSE Design and Technology (Textiles) GCSE Design and Technology (Graphics) BTEC Tech Award in Engineering Vocational Award in Hospitality & Catering Cambridge National Certificate in Child Development	Design and Technology	Product Design Textiles
GCSE Dance BTEC Tech Award Acting	Dance/Drama	Dance Drama BTEC Acting
GCSE English	English	English Language/Literature English Language English Literature Media Studies
GCSE Geography	Geography	Geography
GCSE History	History	History Government & Politics
GCSE Computer Science Cambridge National Certificate in iMedia	Computer Science and ICT	ICT Applied ICT Computer Science

Core Subjects - Maths

Maths is a gateway into all sorts of exciting future careers - Computer Games Designer, Teaching, Formula 1 Engineer, Aerodynamicist, Engineer, Music Producer, Air-Traffic Controller, Banker, Defence Analyst, Designer, Statistician, Investment Analyst, Economist, Tax Advisor, Accountant, Actuary, Auditor, Modelling Analyst, Stockbroker, Architect and Systems Analyst.

Maths is a 3-year linear GCSE (9-1) course, students will complete this course at the end of Year 11.

There are 6 main areas of study - Number, Ratio, Algebra, Geometry & Measures, Probability and Statistics. These areas of study are assessed through exams at the end of the course.

The qualification consists of three equally weighted written examination papers.

- paper 1 is non-calculator
- papers 2 and 3 are calculator papers
- each paper is 1 hour and 30 minutes
- the content will be assessed across all three papers.

This qualification will be graded and certificated on a nine-grade scale from 9 to 1 using the total mark across all three papers where 9 is the highest grade.

We know that to give students the best chances of gaining employment or entry to higher education they must achieve the highest grade possible in Maths.

Core Subjects - English

GCSE English is vital for a whole range of employment options, college and university courses. For most jobs, employers will look for good communication skills, both written and spoken, and the ability to read with insight and understanding. Jobs using English specifically can include work in media, journalism, advertising, public relations, management and teaching.

Students study both English Language and English Literature and are expected to complete the course at the end of Year 11.

In **English Language**, students will study fiction texts (such as extracts from novels) and non-fiction texts (such as leaflets and articles), developing their reading skills and their ability to locate information, infer, summarise, use evidence and comment on the writer's techniques. They will also develop their writing skills, writing short stories and a range of transactional texts for magazines and other media.

In **English Literature**, there will be opportunities to study a range of texts including plays, novels and poems. Some texts are modern and others are from our literary heritage.

Assessment will take the form of examinations at the end of the course.

GCSE English is a very important qualification and a good GCSE grade. Together with a similar grade in Maths, it is the gateway to many careers and courses of higher education. For some University courses, places are based on GCSE grades as well as A Levels.

Core Subjects - Science

All students will follow GCSE science over three years, taking exams at the end of year 11 which will lead to either 2 GCSEs in combined science or three GCSEs in biology, chemistry and physics. The decision on which pathway students take (combined or triple) will be decided during year 9 based on student performance in assessments and classwork.

Students can go on to study A levels in Biology, Chemistry and/or Physics whichever pathway they take. These advanced subjects can then lead on to University Science study. Fascinating professions using science include medicine, veterinary science, pharmacology, forensic science, cosmology, space science, oceanography, engineering and teaching. These qualifications are also a gateway into many other non-science careers.

Science GCSEs are very important qualifications and two or more good GCSEs in science subjects demonstrate many transferable skills that are desirable to both Further Education providers and employers.

Core Subjects - Life

Course Description

This is a core subject and covers students entitlement to Personal, Social and Health Education (PSHE), Citizenship, Religious Studies, Relationships & Sex Education.

In Year 9 students study the following areas:

- Moral & Philosophical Questions
- Anti-Bullying
- Healthy Living (Fitness & Diet)
- Personal Safety
- Environment
- RSE (Relationships and Sex Education)

In Year 10 students study the following areas:

- Mental Health
- Careers
- Healthy Living (Alcohol & Drugs)
- Finance
- British Values
- RSE (Relationships and Sex Education)

Assessment

This is done via teacher assessment and self assessment and is closely linked to the Learning Model supporting personal learning and thinking skills and also SEAL (social and emotional aspects of learning). Revision Skills are also embedded to support students with their examination preparations.

Entry Requirements, Advice and Guidance

All students are required and entitled to follow the LIFE course.

General Comments

All modules include a variety of resources and teaching methods. Many involve outside experts visiting to address students.

Future Prospects/Career Options

This course will support students through all aspects of real life beyond the classroom. It also offers an element of careers education and work related education.

Student Comments

"I like LIFE, you discuss real issues and have the chance of un-pressured learning."

"The teachers create a place where you are happy to ask about anything - I mean anything!"

"The work health and safety course helped me to get a part time job."

Core Subjects - Physical Education

Course Description

Students will have two core PE lessons in Year 9.

Core Physical Education has a high practical content that ensures that activity levels remain the premier focus of the course.

Students will be set based on practical ability however this is a continual process and we expect to see students moving between groups throughout the year.

Students will work on a variety of activities including:

- Outwitting opponents (activities such as netball, football, rounders & tennis)
- Accurate replication (activities such as gymnastics)
- Performing at maximum levels (activities such as athletics and fitness)
- Identifying and solving problems (activities such as orienteering).

It is hoped that the introduction to these concepts will supplement and inspire both development of lifelong participation and elite success.

In addition Core PE will form a basis for those students who are studying Sport and Coaching Principles or intend to study PE in the future.

Assessment

Although there is no formal assessment as part of core Physical Education assessment still takes place and students will be given feedback on each activity that they will take part in for students and parents/carers to track progress and identify areas to improve on.

Assessment takes a variety of forms, including:

- Peer assessment
- Self-assessment
- Teacher observations

Students who have selected to do Sports Science as an option will be grouped with other Sports Sciences students in core time (where possible) to give these students an additional opportunity to improve their practical or theory grade.

General Comments

It gives you the opportunity to experience a range of different activities.

It can positively improve your health and fitness.

Core PE has the potential to develop both lifelong participation and elite performances.

Future Prospects/Career Options

This course is an appropriate gateway to Sport and Coaching Principles.

Course Description

The GCSE is made up of 3 units, which are all exams. All units include aspects of sustainability and the UK.

1. Living with the Physical Environment (exam)

Section A: The challenges of natural hazards.

Natural hazards; Tectonic hazards; Tropical storms; Extreme weather and Climate change.

Section B: Physical landscapes in the UK.

Coastal landscapes including management strategies
River landscapes with flood management strategies.

Section C: The living world.

Ecosystems; Tropical rainforests and Hot deserts.

2. Challenges in the Human Environment (exam)

Section A: Urban issues and challenges.

Urban growth; Urban change; Urban sustainability and Patterns of urban population change.

Section B: The changing economic world.

Economic development and quality of life; The development gap; Economic change in UK.

Section C: The challenge of resource management.

Resource management and global water resources.

3. Geographical applications (exam)

Issue evaluation; Pre-release material and Fieldwork; 2 geographical enquiries in contrasting environments.

Assessment

The GCSE is made up of 3 exams: Living with the Physical Environment -

1 hour 30 - 35%

Challenges in the Human Environment -

1 hour 30 - 35%

Geographical applications including local fieldwork -

1 hour 15 - 30%

Entry requirements, Advice and Guidance

GCSE Geography is a well recognised academic qualification and geographers are in demand because of their ability to analyse situations, data and apply understanding and skills to a wide variety of contexts. Students should have an interest in the environment and people and enjoy developing a wide range of skills.

General Comments

Geography is a very special subject because it offers a unique combination of transferable and well recognised skills. A Geographer is expected to be able to interpret photographs, maps, graphs and data tables. They can evaluate arguments, problem solve and make decisions as well as write extended pieces of work and gather data in different environments. Geography keeps you up to date with current issues and world events and is taking on ever more importance in schools, colleges, universities, government, industry, and communications. Geography GCSE combines map, graphical and maths skills with written answers of different lengths. Literacy skills are developed through the course and we offer a range of opportunities to students who might need additional support. The Geographical applications exam requires students to collect data in two contrasting environments. In order to complete this, we run a fieldtrip to the coast. There may be a small cost to this fieldtrip but we would not let the cost of a trip stop any student from attending on the day.

Student Comments

"Geography is a great subject as it has lots of interesting and varied topics some of which link to Science which makes it easier."

Geography is very interesting and enjoyable. The teachers offer extremely good support when you are stuck. It is a very good GCSE to do."

"I think that Geography is really interesting as you can learn about different and exciting topics such as earthquakes, hurricanes, and why there are so many differences between countries"

Future Prospects/Career Options

Geography has been identified as one of 10 recession proof degree subjects because it is highly valued by employers for its combination of subject knowledge and how well it links with other subjects such as Maths, English, Science, Law and ICT. Employers need individuals who have the ability to analyse and explain what is happening around them and adapt accordingly to different situations. Geographers are impressive in their ability to be resilient, adaptable and able to apply a wide variety of skills. As a qualification, Geography is greatly respected by University entrance officers. It is chosen by over 30,000 undergraduate students each year and has one of the highest rates of graduate employability.

Course Description

The GCSE 9-1 History course combines social, political and military history to allow students to develop their knowledge and interest across a range of areas. Students will cover a range of European and World History topics from across the past 500 years including...

- The Tudors: Early Elizabethan England, 1558-88.
- The History of Medicine in England (Medieval Period-Black Death, Renaissance Period-The Plague and Fire of London and Modern Medicine-the creation of the NHS).
- The American West 1835-1895.
- Germany in the 20th century.

Assessment

The new GCSE follows a linear structure, which means students will take three examinations at the end of the course. There is no coursework element. The assessment structure is as follows:

Paper 1: Thematic study and historic environment-Examination-1 hour 15 minutes.

Paper 2: Period study and British depth study-Examination-1 hour 45 minutes.

Paper 3: Modern depth study-Examination-1 hour 20 minutes.

Entry requirements, Advice and Guidance

This is a GCSE option which is being offered by the History department to allow students to gain knowledge and understanding of key events which have taken place in both British and World history and which still impact upon students today. Students will be required to write extended answers to questions and source analysis skills will be developed throughout the course.

General Comments

The aims and objectives of this qualification are to enable students to:

- develop and extend their knowledge and understanding of specified key events, periods and societies in local, British, and wider world history; and of the wide diversity of human experience
- engage in historical enquiry to develop as independent learners and as critical and reflective thinkers
- develop the ability to ask relevant questions about the past, to investigate issues critically and to make valid historical claims by using a range of sources in their historical context
- develop awareness of why people, events and developments have been accorded historical significance and how and why different interpretations have been constructed about them
- organise and communicate their historical knowledge and understanding in different ways to reach substantiated conclusions.

Future Prospects/Career Options

History is an impressive academic subject valued by all branches of higher education and employers. The study of History provides students with a capacity for analysis, an ability to communicate and an understanding of the decision making process. These skills are highly sought after by employers and will benefit students in their working and social life. The skills acquired from the study of History will benefit those seeking a career in law, civil service, commerce, business, media and many others. History GCSE forms part of the EBacc qualification and is a highly sought after qualification for both Post 16 centres and employers.

Student Comments

"History GCSE is a very interesting course. We learnt about a range of topics and countries. I would recommend it as a great GCSE. I especially enjoyed learning about Weimar and Nazi Germany."

"The teachers are very supportive and there are a range of catch-ups and activities to get involved in. It is hard work but I really enjoyed the different topics including medicine through time and the American West."

GCSE French (ab-initio)

Course Description

This is a three year course in French leading to a Level 2 qualification. The course is examined in all four areas of listening, reading, speaking and writing. Building on from the skills that you developed at KS3 in Spanish or German, you will study a variety of authentic, topical and cultural material surrounding the topics of:

- Identity and culture (including: freetime, family and social media)
- Local, national, international and Global areas of interest (including: your town, social issues, the environment and travel and tourism)
- Current and future employment (including: school, P16 education, jobs and careers)

The aim of the course is to develop your speaking and listening skills, as well as your understanding of how language works. This course will also allow you to learn about France and French-speaking communities and countries.

Topics and tasks may include:

- ICT tasks and web pages from the target country
- News and current affairs topics
- Information gathering and sharing on famous people from the target country
- Study of the country and its culture, e.g. transport, regions, fashion, sport
- Study of the grammar of the language to increase understanding and independent expression
- Reading stories / poems, etc
- Creative writing.

Assessment

**100% Examination
(25% Listening, 25% Reading,
25% Speaking, 25% Writing).**

You will be examined at the end of the course in all the four skills of Listening, Reading, Speaking and Writing. Each of these exams will be worth 25% of your final grade. You and your teacher will decide whether you should take the Foundation papers (Grades 1-4) or the Higher papers (Grades 4-9) in these skills.

Entry Requirements, Advice and Guidance

Students are strongly recommended to work hard in the language studied in Year 7 and 8. Students should be 'Achieving' or above in this language by the end of KS3.

General Comments

Students who study a foreign language often have a deeper understanding and interest in the world around them. This leads to an increased appreciation of their own culture as well as other cultures. Additionally, students find that studying a foreign language allows them to deepen their knowledge of how their own language works and this has a positive impact on other GCSE subjects.

Future Prospects/Career Options

Employers and universities like students with Languages GCSEs because they have shown commitment and the ability to work independently. They have demonstrated that they have excellent communication skills and can learn and retain information. Almost all university courses include an option to add study of a foreign language and/or study abroad. Having a foreign language to GCSE level will complement all other subjects and will show that you have an ability to communicate effectively with others.

In an increasingly globalised world, many professions and international companies actively seek employees who are able to speak a foreign language, and will often pay a higher salary for this skill.

- Logistics
- International Business
- Hospitality Industry
- Travel and Tourism

Student Comments

"The teachers make you feel confident that you will pass your language GCSE."

"Learning languages gives you an overall goal and sense of determination to do the best you can and achieve what you believe you can."

Additional MFL Options

Students are recommended to attend weekly catch-up sessions starting January 2019. This new course will be referred to as GCSE French ab-initio.

This course is labelled ab-initio as Year 8 students have not studied French before. There is no pre-requisite for students to have any knowledge of French and as such, we would expect students who pick this option to attend catch up in Year 8 when options are confirmed.

Course Description

This is a three year course in German leading to a Level 2 qualification. The course is examined in all four areas of listening, reading, speaking and writing. Building on from the skills that you developed at KS3 German, you will study a variety of authentic, topical and cultural material surrounding the topics of:

- Identity and culture (including: freetime, family and social media)
- Local, national, international and Global areas of interest (including: your town, social issues, the environment and travel and tourism)
- Current and future employment (including: school, P16 education, jobs and careers)

The aim of the course is to develop your speaking and listening skills, as well as your understanding of how language works. This course will also allow you to learn more about Germany and German-speaking communities and countries.

Topics and tasks may include:

- ICT tasks and web pages from the target country
- News and current affairs topics
- Information gathering and sharing on famous people from the target country
- Study of the country and its culture, e.g. transport, regions, fashion, sport
- Study of the grammar of the language to increase understanding and independent expression
- Reading stories / poems, etc
- Creative writing.

Assessment

**100% Examination
(25% Listening, 25% Reading,
25% Speaking, 25% Writing).**

You will be examined at the end of the course in all the four skills of Listening, Reading, Speaking and Writing. Each of these exams will be worth 25% of your final grade. You and your teacher will decide whether you should take the Foundation papers (Grades 1-4) or the Higher papers (Grades 4-9) in these skills.

Entry Requirements, Advice and Guidance

Students are strongly recommended to continue with the language they have studied in Year 7 and 8. Students should be 'Achieving' by the end of KS3.

General Comments

Students who study a foreign language often have a deeper understanding and interest in the world around them. This leads to an increased appreciation of their own culture as well as other cultures. Additionally, students find that studying a foreign language allows them to deepen their knowledge of how their own language works and this has a positive impact on other GCSE subjects.

Student Comments

"Learning a language is a fun and interesting way of communicating... it helps you in everyday life and can positively affect your future career."

"I love learning Spanish because the teachers are helpful, you learn a variety of things and it's fun!"

"Learning a language is a very different experience. You learn a lot more and the teachers help you a lot."

Future Prospects/Career Options

Employers and universities like students with Languages GCSEs because they have shown commitment and the ability to work independently. They have demonstrated that they have excellent communication skills and can learn and retain information. Almost all university courses include an option to add study of a foreign language and/or study abroad. Having a foreign language to GCSE level will complement all other subjects and will show that you have an ability to communicate effectively with others.

In an increasingly globalised world, many professions and international companies actively seek employees who are able to speak a foreign language, and will often pay a higher salary for this skill.

- Logistics
- International Business
- Hospitality Industry
- Travel and Tourism

Course Description

This is a three year course in Spanish leading to a Level 2 qualification. The course is examined in all four areas of listening, reading, speaking and writing. Building on from the skills that you developed at KS3, you will study a variety of authentic, topical and cultural material surrounding the topics of:

- Identity and culture (including: freetime, family and social media)
- Local, national, international and Global areas of interest (including: your town, social issues, the environment and travel and tourism)
- Current and future employment (including: school, P16 education, jobs and careers)

The aim of the course is to develop your speaking and listening skills, as well as your understanding of how language works. This course will also allow you to learn more about Spain and Spanish-speaking communities and countries.

GCSE Computer Science

Course Description

Unit 1: Computer Systems

In this unit, students explore the fundamentals of computer systems including computer hardware and software. The unit also includes a significant amount of networking as well as ethical, legal, cultural and environmental concerns related to computer science.

Unit 2: Computational Thinking, Algorithms and Programming

In this unit, students will cover algorithms, programming techniques and writing in pseudo code. The unit also includes computational logic and how computers interpret, translate and represent data.

Unit 3: Programming Project

The set of tasks within unit 3 will provide opportunities for students to solve a problem using a programming language, this includes showing design, development, testing and evaluation. This is a mandatory unit and does not contribute to the overall GCSE grade directly, but provides essential skills for Unit 2 success.

Assessment

Unit 1

Examination - 50% - 1hr 30 mins

Unit 2

Examination - 50% - 1hr 30 mins

General Comments

This is a new course in line with government reforms to GCSEs.

This course is different from ICT. ICT focuses on technology from a 'user' point of view whereas computer science focuses on how technology works behind the scenes.

There is a significant amount of mathematics content and logic in this course and it is advised that students are confident in their ability in mathematics before considering this as an option.

Future Prospects/Career Options

This course will serve students well as an excellent introduction into AS/A2 ICT and AS/A2 Computer Science. On successful completion of this course, a solid foundation will have been built for students to continue into computers/engineering at university.

Student Comments

"The course is fun but very challenging, you have to be very independent when programming to find and correct errors all by yourself."

"There are a lot of interesting parts of the theory, however there is a lot of maths and different calculations to remember."

GCSE Art and Design

Course Description

What will I learn?

Art is an experience based, highly personalised course. You will be given lots of opportunity to develop your own ideas and you will face many interesting, creative challenges. We aim for you to learn positively through enjoyment of the subject.

The course includes:

- Painting / Drawing / Printmaking / Mixed media
- Recording in a wide range of materials and techniques
- Exploring visual language
- Researching and developing resources
- Exploring personal responses to your own and set themes
- Creatively using visual media including digital media and computers
- Exploring contextual work from contemporary and historical sources
- Presenting your work to a high standard, applying your visual communication skills
- Drawing is a major component of the course. You must enjoy drawing.

Assessment

This is a TWO unit course.

You will do a personal themed project, creating a coursework portfolio for Unit 1, followed by an externally set assignment, including a 10 hour independent work period, for Unit 2.

The assessment criteria are the same for each unit but the coursework portfolio counts for 60% of the final mark and the exam counts for 40%.

IS GCSE ART FOR ME?

YES - if you love doing creative things, if you enjoy challenges and taking the initiative, if you love drawing, if you have a good level of ability or if you are thinking of a career in visual arts.

NO - if you get bored easily with art, if you struggle with art, if you don't enjoy a creative challenge or if you don't enjoy drawing.

Future Prospects/Career Options

The creative industries contributed over £80 billion to the UK economy last year and is growing. Employment grew by 5% compared with 2.1% in the wider UK economy.

Student Comments

"I did Art in year 9 because I am thinking about doing art at A Level. The thing I like about art is having to make up your own mind about things and not being told what is right and wrong all the time. I do loads of enrichments too which is the best for me because I like to do things really well."

"Art is a lot of work but most of it is really good fun. We have had to learn how to concentrate on our work for ages but it's great when you get into it."

BTEC Tech Award in Enterprise

Course Description

Pearson Btec Tech Award

Component 1: Exploring Enterprises

In this unit, students will study:

- Different types of enterprise and their ownership.
- The importance of a clear focus on the customer and the importance of meeting their needs.
- Relevant skills in market research and analysis.
- Be able to interpret findings to support your understanding of customers and competitors.
- Investigate ways in which situational analysis can be used to support decision making.
- How the success can be monitored in an SME.

Component 2: Planning for and Running an Enterprise

In this unit, students will select an enterprise idea to plan and pitch for. They will work as a small group to run a micro-enterprise activity, and will develop their skills in operating and reviewing the success of the enterprise. Students will have the opportunity to plan how best to set up the enterprise and how to fund it. They will then pitch their developed idea and comment on the ideas of others. Students will then work with others to set up and run a micro enterprise activity, using your knowledge of entrepreneurial characteristics and qualities.

Component 3: Promotion and Finance for Enterprise

In this final unit, students will explore the different promotional methods used by enterprises and the factors that influence how enterprises identify and target their market. They will explore financial documents and how to use them to monitor and improve the performance of an enterprise in order to make decisions and recommend strategies for the success of an enterprise.

Assessment

60% Coursework (Unit 1 and 2)
40% Examination (Unit 3)

Entry Requirements, Advice and Guidance

There are no formal entry requirements. Students must be aware that there is a considerable amount of written work required to produce their portfolios and students must have good research skills due to investigating a number of different small and medium size enterprises.

Future Prospects/Career Options

This qualification can lead to a full range of education and training at Post-16 level. Studying Business is especially favoured by employers as students are equipped with the necessary skills in Business and Enterprise.

Cambridge National Certificate in Creative iMedia

Exam Board: OCR

Course Title: Cambridge Nationals Certificate in Creative iMedia (QN 600/7043/2)

What is it worth?

One GCSE Equivalent

Why take this course? Who is it for?

Cambridge Nationals in Creative iMedia are media sector-focused, including film, television, web development, gaming and animation, and have IT at their heart. They provide knowledge in many key areas in this field from pre-production skills to digital media including image, audio and video and have practical learning at the heart. If you enjoy the creative side of IT and creating products such as graphics and audio whilst understanding the design fundamentals behind it this course is for you. Most lessons will be practical, although there will be extended writing involved when reviewing and evaluating your work.

How is the course structured?

R081 - Pre-production skills

Written exam

75 minutes

25% of the qualification

R082 - Creating Digital Graphics

Coursework

25% of the qualification

R087 - Creating Interactive Multimedia products

Coursework

25% of the qualification

R088 - Creating a digital sound sequence

Coursework

25% of the qualification

What will you study? What skills will you develop?

In this course you will learn a range of different creative ICT skills, this includes graphics, video and audio editing. In addition to this you will learn about the fundamental design principles of different media products. You will learn how to manage a project and create products to the brief set by a client. This includes analysing the client requirements, designing a product that meets these requirements, creating the product and then critically evaluating it. All of these skills are transferrable to a multitude of other subjects and are fully applicable to the digital ICT sector.

What possible progression routes are available after taking this course?

This course would leave students with the ideal foundation to study a Technical ICT or media qualification in 6th form or through other Post 16 providers.

What possible careers follow on from this course?

Creative iMedia fits into most careers but some of the possible career paths include:

- Web designer
- Graphic design
- Video production
- Social media publicist
- Media marketing director

Who do I see for further information?

Mr Kirkpatrick or Mr Houlton

GCSE Religious Studies

Course Description

GCSE Religious Studies provides opportunities for learners to understand more about the world, the religious challenges it faces and their place within it. Following this GCSE course will deepen understanding of religions and their effect on society. It will develop learners' competence in a wide range of skills and approaches and enable young people to become religiously informed and thoughtful, engaged citizens.

You will learn about the BIG questions in life such as:

- What happens when we die?
- Does God exist?
- Why is there evil in the world?
- Should Capital Punishment still exist?

Alongside this you will also learn about the beliefs and practices of Christianity and Islam to help give you a greater understanding of why people follow a particular religion and why they have certain practices linked to their beliefs.

Taking Religious Studies will:

- give you knowledge about what other people believe and the sort of world we live in
- give you an understanding of what people mean when they say certain things
- help you to evaluate different points of view
- give you the opportunity to debate some of the big issues you will have to face during the course of your own life. At the same time, you will be:
 - clarifying some of your own ideas and hopes for the future
 - learning to put across your own point of view
 - developing all kinds of skills and aptitudes including self-awareness, tolerance, the ability to communicate and listen effectively and analytical skills.

If you think that Religious Studies is only for someone who wants to be a vicar, minister, nun, monk, rabbi, imam or even an RS teacher, then think again! Religious Studies has a lot to offer – perhaps more than you might think – in helping you prepare for many different types of career. You don't have to be religious to enjoy Religious Studies either. It will make you think about your life and the way you live it.

Assessment: Worth 1 GCSE

Students will complete 3 exams.

50%: Religious, Philosophical and Ethical Studies in the Modern World - 2 hours

25%: Study of Christianity - 1 hour

25%: Study of a World Faith (Islam) - 1 hour

Entry Requirements, Advice and Guidance

Students must have a good level of English to be able to write answers that show knowledge and understanding of the content studied and also to be able to give a well-reasoned evaluation in their written work.

General Comments

The course consists of 3 Components:

1. Religious, Philosophical and Ethical Studies in the Modern World
 - a. Issues of relationships
 - b. Issues of life and death
 - c. Issues of good and evil
 - d. Issues of Human Rights
2. Christianity
 - a. Beliefs and Teachings
 - b. Practices
3. Islam
 - a. Beliefs and Teachings
 - b. Practices

Student Comments

"RS gives you the confidence to voice your opinion in society, as well as listening and respecting other."

"RS is creative and interesting- it's not all about God!"

"It makes you think outside the box."

"I can use it in real life and debate issues and interact with my classmates."

"I really enjoyed RS because it gave me the opportunity to express my thoughts and opinions on issues I am interested in."

Future Prospects/Career Options

A GCSE in Religious Studies is a stepping stone to a wide range of future opportunities. The skills you develop will support you in further studies and employment.

Religious Studies provides a good background for any career where understanding people is an asset. Employers like to know that applicants have thought a bit about themselves and their place in the world. They expect them to be able to work with a wide range of people – often from different cultures – and to treat them all with courtesy and respect. In helping you to develop such understanding and insights about yourself, Religious Studies has a real part to play. These skills are vitally important in all careers especially professions such as the police, retail, teaching, the law, the caring professions and the armed forces, in fact any profession that brings you into contact with other people.

Vocational Award in Sport and Coaching Principles

Course Description

The Vocational Award in Sport and Coaching Principles is designed to encourage and inspire learners into following a worthwhile qualification that provides insight into sports performance and coaching. It is designed to develop independent learners that can make informed decisions about further learning opportunities or continue into related career choices. Learners develop both a critical and analytical approach to problem solving whilst gaining an understanding of sports performance, fitness and coaching principles. The qualification is designed to include a variety of aspects of Sport and Coaching including improving their own and others performance, how to assess needs and identify actions plans to develop physical fitness for sport or health, and how to coach different groups with different needs. The knowledge and skills gained provide a clear grounding within the sport and sports coaching sectors for those learners that may choose a career in sport, leisure, fitness instruction and coaching. Although there are no formal entry requirements, learners would find the following learning skills and aptitudes helpful: basic proficiency in literacy and numeracy, some aptitude for working with computers and motivation to work independently. It would also be useful if the learner wanted to follow a career path in sport or other Level 1/2 qualifications.

The WJEC Vocational Award in Sport and Coaching Principles is made up of three mandatory units:

Learners must complete all units.

Unit 1 - Improving Sporting Performance

The purpose of this unit is for learners to gain the knowledge and understanding needed to be able to analyse performance of individuals and review options to improve performance.

Internally assessed / 30%

Unit 2 - Fitness for Sport

The aim of this unit is to develop in learners the knowledge, understanding and skills to plan training programmes to improve the fitness of individuals.

Externally assessed / 40%

Unit 3 - Improving Sporting Performance

The aim of this unit is to provide learners with the appropriate knowledge and understanding to be able to plan, lead and evaluate a sporting activity.

Internally assessed / 30%

Assessment

One unit is an exam (1 hour) and the other three units are coursework based.

Entry Requirements, Advice and Guidance

The course requires a high level of commitment to the learning of new areas in both a practical and theoretical physical education environment.

Future Prospects/Career Options

This course is an appropriate gateway to a range of exciting careers and opportunities in the sporting industry. Successful completion of the course offers an appropriate foundation for Level 3 Sport Courses such as A Level Physical Education and BTEC National Diplomas in Sport and Exercise Sciences. Candidates who successfully follow this pathway can look towards a career in a range of different professions such as PE Teacher, Sports Coach, Fitness Instructor, Dietician, Sports Development Officer, Sports Psychologist, Personal Trainer and Sports Development Officer.

GCSE Art and Design (Textiles)

Course Description

Textiles is an experience based, highly personalised course. You will be given lots of opportunity to develop your own ideas and you will face many interesting, creative challenges. We aim for you to learn positively through enjoyment of the subject. During the course you explore a wide range of textile design techniques and processes, for example:

- weaving
- felting
- stitching
- appliqué
- construction methods
- printing

You will also use media and materials, appropriate to your personal intentions, for example:

- inks
- yarns
- threads
- fibres
- fabrics
- textile materials
- digital imagery.

You will explore the work of contemporary and historical artists, designers, photographers and sculptures. You will be expected to present your work to a high standard, applying your visual communication skills developed during the course.

Assessment

Component 1 – Portfolio

Component 2 – Externally Set Assignment

You will do a personal themed project, creating a coursework portfolio for Unit 1, followed by an externally set assignment, including a 10-hour independent work period, for Unit 2. The assessment criteria are the same for each unit, but the coursework portfolio counts for 60% of the final mark and the exam counts for 40%.

Entry Requirements, Advice and Guidance

You need to be creative and be passionate. Organisation is key, in order to meet deadlines during the coursework element of the course.

Future Prospects/Career Options

GCSE is a gateway to many exciting careers and study at higher levels. At A Level we offer; Art and Design Textiles and Product Design with Graphics Communication. Careers in textile design, fashion design, interior design, surface pattern are just a few of the possible avenues available studying this subject in an ever-growing creative industry. The creative industries contributed over £80 billion to the UK economy last year and is growing. Employment grew by 5% compared with 2.1% in the wider UK economy.

Student Comments

"Best lesson of the week."

"The subject has helped me be more creative and confident in my work. I have learnt so much it is untrue."

"It's such a fun subject but it also teaches you how to think."

"It was really challenging, but great fun. I loved learning to use all the software and computers but also the machinery. It is just so different to everything else."

"It is so much more interesting and different to everything else."

GCSE Design and Technology (Graphics)

Course Description

The GCSE allows for an iterative design processes. Students will use their creativity and imagination to design and make prototypes that solve real and relevant problems, considering their own and others' needs, wants and values. This qualification is modern and relevant, so students can learn about contemporary technologies, materials and processes, as well as established practices. It is a well-regarded GCSE that demonstrates a different skill set than more traditional, academic qualifications. It provides balance and essentially, demonstrates the creative capacity of the student to potential employers.

Assessment

Written exam: 2 hours
100 marks testing your knowledge

- Core technical principles
- Specialist technical principles
- Designing and making principles

Worth 50% of GCSE

Non-exam assessment (NEA -
Coursework)

100 marks
Worth 50% of GCSE

Students will produce a working prototype and a portfolio of evidence (no more than 20 pages).

General Comments

Everything you rely on is designed and makes use of some form of technology. Take these aspects away and we're back in the dark ages. We will need even more advanced products and technologies if we are to progress into the next century so who will provide what we need. You will and this is what students currently studying had to say.

Future Prospects/Career Options

Advertising art director, animator, creative director, graphic designer, illustrator, printmaker, production designer, theatre/television/film, art director, drafter (architecture and engineering), film and video editor, games designer, architect, interior design, product designer, marketing manager, multimedia artist.

Student Comments

"I love the freedom to create my own ideas."

"3D printers, Laser cutters, I have learnt to use industry specific equipment."

"I have really enjoyed learning how to use Adobe Illustrator software used in Graphic Design."

"I have learnt loads of transferable skills and become more confident."

"I would recommend this course to anyone who has imagination, it's great."

Vocational Award in Hospitality and Catering

Course Description

The WJEC Level 1/2 Vocational Award in Hospitality and Catering is made up of two mandatory units: Unit 1 - The Hospitality and Catering Industry Unit 2 Hospitality and Catering in Action. Learners must complete both units. This structure has been designed to develop in learners the knowledge and understanding related to a range of hospitality and catering providers; how they operate and what they have to take into account to be successful. There is the opportunity to learn about issues related to nutrition and food safety and how they affect successful hospitality and catering operations. In this qualification, students will also have the opportunity to develop some food preparation and cooking skills as well as transferable skills of problem solving, organisation and time management, planning and communication.

Assessment

Unit 1 - The Hospitality and Catering Industry external exam worth 40%.

Unit 2 - Hospitality and Catering in Action, an internal coursework assignment worth 60%. Students will complete a brief and put together a portfolio of evidence with photographs used to evidence practical outcomes. Students will safely plan, prepare, cook and present nutritional dishes.

Entry Requirements, Advice and Guidance

Students will need to be organised, use their time effectively to plan a range of dishes and make these in a 2hr lesson. There is an expectation that students will bring ingredients to every practical lesson, along with a suitable container to bring the finished outcome home. Students will not cook every week as they have theory to learn in preparation for the exam and when writing up the coursework. Students suitable will have a passion for cooking, not be afraid to try new ingredients and may possibly see themselves working in the catering industry one day.

Student Comments

"I've developed lots of new skills, spinning sugar, making pasta and crème pâtissière from scratch." "I love food, lots of practical, lots of fun. I am learning skills that I can use in my future career as a development Chef."

Future Prospects/Career Options

Learners who achieve this qualification could progress onto Level 3 qualifications and A levels, such as:

- Advanced GCE in Design and Technology: Food Technology
- Advanced GCE in Home Economics (Food, Nutrition and Health)
- Diploma in Advanced Professional Cookery (Preparation and Cooking)
- Certificate in Hospitality and Catering Principles
- Professional Cookery Studies.

This course will enable learners to make informed decisions about a wide range of further learning opportunities and career pathways. According to the British Hospitality Association, hospitality and catering is Britain's fourth largest industry and accounts for around 10% of the total workforce. Since 2010, over 25% of all new jobs have been within the hospitality and catering sector. The hospitality sector employs millions of people worldwide and offers exciting opportunities for students to travel and learn a range of valuable life skills. Careers could be a head chef, food stylist, food and beverage manager, pastry chef, caterer, product developer, menu designer, nutritionist, dietitian, food and restaurant critic, sous chef, sommelier, wait staff, food photographer.

BTEC Tech Award in Engineering

(Qualification Number: 603/0829/1)

Course Description

What is 'engineering'? Is it using materials and processes to manufacture a single item? Is it applying new technologies to the mass production of well-known products?

Or is it implementing methods to reduce waste and improve the sustainability of energy sources? Engineering is all of these things and many more.

The course gives you the opportunity to develop sector-specific knowledge and skills in a practical learning environment. The main focus is on four areas of equal importance, which cover the:

- Development of key engineering practical and technical skills, such as research, observation, measurement, making, using computer-aided design (CAD) and disassembly.
- Knowledge of key engineering sectors (mechanical, electrical/electronic and engineering design) and the interrelation of each in industry.
- Knowledge of the stages involved in planning and implementing an engineering project.
- Knowledge and skills involved in the investigation of solutions to engineering problems in response to a given brief.

Assessment

Unit 1: Exploring Engineering Sectors and Design

Applications 30% (coursework)

Unit 2: Investigating an Engineering Product 30% (coursework)

Unit 3: Responding to an Engineering Brief 40% (exam)

Entry Requirements, Advice and Guidance

An engineering-based education allows student's exposure to various technical subjects and skill sets. You will be able to develop skills that are transferable to most industries such as problem solving, decision making, innovation, project management, team working and communication. This course will allow you to access A levels and BTEC Level 3 qualifications in Engineering.

Future Prospects/Career Options

The UK is regarded as a world leader in engineering, which covers a wide range of exciting and rapidly developing areas such as renewable energy, space, low carbon, aerospace, automotive, agri-food and bioscience. People with engineering skills are always in demand. Between 2010 and 2020, engineering companies are projected to have 2.74 million job openings.

Aerospace engineer. Automotive engineer. Contracting civil engineer. Control and instrumentation engineer. Maintenance engineer. Mechanical engineer. Nuclear engineer. Building control surveyor. Product Development scientist. IT consultant. Quality manager.

Cambridge National Certificate in Child Development

Course Description

The course will develop a student's knowledge and understanding of human needs in a diverse society working in a variety of contexts such as parenthood, pregnancy, diet, health and care of the child, development of the child and support for the parent and child. Through a range of tasks the student will learn a wide range of skills and knowledge relevant and transferable to other settings. This course will provide a solid foundation for progression to further Health and Social Care studies.

Please note that you will need to know a close family friend or relative with a young child under the age of five in order to carry out your child study. If you do not have a child to study then you will not be able to study child development as the child study accounts for 40% of the overall grade.

Assessment

Unit 1: Preparation for the end of course exam. All students will learn the essential knowledge and understanding for child development, covering reproduction, parental responsibility, antenatal care, birth, postnatal checks, care, and conditions for development, childhood illnesses and child safety.

Unit 2: Students will gain knowledge of the equipment needs of babies and young children and an understanding of the factors to be considered when choosing appropriate equipment to meet these needs. They will also gain knowledge of nutrition and hygiene practices and will be given the opportunity to evaluate dietary choices. Students will produce a portfolio of work which will involve some practical elements.

Unit 3: Students will gain knowledge of, and skills in, developing activities to observe development norms in children up to the age of five. This unit will include researching, planning, carrying out activities with children and observing and reviewing these activities, as well as an understanding of the development norms and the benefits of play in child development.

Student Comments

"Child development is a great option to take if you're interested in a career involving children. There is a lot of work to do, but it is a great class to be part of."

"I am a year 11 who has enjoyed child development, you have a range of different topics which are interesting and the teachers are really supportive, they try to make the work less stressful for you and push you to get your target grades."

"It's really interesting, never boring!"

Entry Requirements, Advice and Guidance

The course is suitable for students who have an interest in working with children under the age of 5. The course will include both primary and secondary research, observing and studying a young child over a period of 6 months. You will need to be organised in order to meet deadlines and arrange meetings with the parent of the young child. You will also need to be able to work independently and take responsibility while undertaking the child study and be able to communicate clearly during interviews, classroom discussions and written pieces of coursework.

Future Prospects/Career Options

- Early years teacher
- Nursery nurse
- Child minder
- Midwife
- Health Visitor
- Family Support Worker
- Social Worker
- Paediatric Nurse
- Speech and Language Therapist

BTEC Tech Award in Performing Arts (Drama)

Course Description

This is a highly practical course that will give learners the opportunity to develop their own practical performance skills and understanding of how the performing arts industry works.

Assessment

You will be assessed in 3 components:

Component 1 : Exploring the Performing Arts

You will develop their understanding of the performing arts by examining practitioners' work and the processes used to create performance. You will study at least 3 contrasting theatre companies and or practitioners. You will independently research and learn through workshops about approaches and practically apply these methods to their own work.

Worth 30% and Internally assessed.

Component 2: Developing skills in the Performing Arts

In this component, you will develop performance skills and techniques. You will take part in workshops and classes where you will develop technical, practical and interpretative skills through the rehearsal and performance process. You will work from existing performing arts repertoire, applying relevant skills and techniques to reproduce the work. Throughout your development, you will review your own progress and consider how to make improvements.

Worth 30% and Internally assessed.

Component 3 : Performing to a Brief

You will be given the opportunity to work as part of a group to create a workshop performance in response to a given brief and stimulus. This is the final assessment. You will be given a brief that outlines the performance requirements and that asks you to consider your target audience and to start the creative process by using the given stimulus included in the brief. Working as part of a group, you will develop your ideas for a workshop performance and apply your skills and techniques to communicate your creative intentions to your audience.

Worth 40% and Externally assessed.

Entry Requirements, Advice and Guidance

It is strongly recommended that students should be working towards a Level 4 or above in English.

General Comments

Assessment will be through both written and Performance evidence. Expect after school rehearsals in preparation for your examined practical assessments. A willingness to perform in front of supportive audiences is required.

Future Prospects/Career Options

A BTEC Tech Award shows an employer that a student has confidence, good communication skills and an ability to work independently. It is an excellent subject to take in order to show diversity of interest and creativity. With a BTEC Tech Award you could continue your studies on any of the level 3 courses that Outwood offers. Drama graduates are statistically proven to be those who found employment the easiest after leaving university.

This qualification also assists all students pursuing a career working with people, sales, marketing, journalism, media, law, and of course all jobs in performance or theatre/ television/film production.

Student Comments

"I look forward to drama every week. I can't wait to see what issue or topic we will be exploring."

"I love the fact that we all work so well together and have such a good time. Drama makes such a change to all the other subjects I take and I always feel so much better afterwards."

Course Description

Dance is a powerful and expressive subject which encourages students to develop their creative, physical, emotional and intellectual capacity, whatever their previous experience in the subject. This course recognises the role of dance in young people's lives and the students will study a range of dance styles.

Assessment

Component 1 - Performance and Choreography

What's assessed

Performance

- Set phrases through a solo performance (approximately one minute in duration)
- Duet/trio performance (three and a half minutes in duration)

Choreography

Solo or group choreography - a solo (two to two and a half minutes) or a group dance for two to five dancers (three to three and a half minutes)

Performance

- 30% of GCSE
- 40 marks (15 marks for set phrases and 25 marks for duet/trio performance)

Choreography

- 30% of GCSE
- 40 marks

Component 2 - Dance Appreciation

What's assessed

- Knowledge and understanding of choreographic processes and performing skills
- Critical appreciation of own work
- Critical appreciation of professional works

40% of GCSE

- Written exam: 1 hour 30 minutes
- 80 marks

Entry Requirements, Advice and Guidance

You must have a level 6 for KS3 English. Some experience of Dance is preferred.

General Comments

The study of dance as an art form contributes to students' aesthetic and social development. As a physical activity it promotes fitness and well-being.

Future Prospects/Career Options

GCSE Dance will set students up to continue with A Levels or BTEC courses at Key Stage 5. Many students will go on to study dance further at University or Dance Conservatoires to Degree level and beyond. Courses are available at Masters and PhD level. Career opportunities can include performer, choreographer, teacher, director, dance critic, dance movement therapy.

Student Comments

"Studying dance has really developed my confidence."

"I have done lots of dance outside school and this course has provided me with the opportunity to choreograph my own work."

"GCSE Dance has challenged me to look at dance from a wider perspective."

Course Description

This is a traditional GCSE course. You will study 3 areas, which naturally progress to the areas studied at Advanced level. These areas are:

Performing

This will account for 30% of your marks and is teacher assessed. You will be asked to perform on an instrument/voice of your choice, in any style you wish. Your performances will be both solo and as an ensemble.

Composition

Again this will account for a 30% of your marks and is teacher assessed. You produce two compositions or arrangements using the music software in the music technology suite.

Appraising

Four areas of music have to be studied. These include Musical Forms and Devices, Music for Ensemble, Film Music and Popular Music. There are two set works to study from these areas, Rainbow's 'Since You've Been Gone' and Mozart's 'Eine Kleine Nachtmusik'.

Assessment

The performing and composing areas will be teacher assessed and then moderated by the exam board.

The appraising unit will be tested by a 1 hour and 15 minute examination and will account for 40% of the total marks.

Entry Requirements, Advice and Guidance

All potential GCSE students must play an instrument or sing to approximately grade 2 level by the beginning of the course.

General Comments

If you enjoy performing music in your own time or enjoy creating music on computers or in a recording studio, then this is a good subject to choose! If you would like to create music of your own, then composing will give you the opportunity. If you want to broaden your knowledge of all types of music, then this exciting course will give you an appreciation of the diversity of musical styles that exist today.

Future Prospects/Career Options

Performing musician, teacher, instrumental teacher, working in the performing arts business, recording technician, producer, DJ, arts administration, army musician, agent, community musician, concert promoter, events manager, music retail business, instrumental repairs, marketing for the record industry, music director, music publisher.

Student Comments

"I enjoyed performing with my friends."

"I have learnt a lot about music on this course. It is hard work!"

"I love to write and perform my own songs, and this course improved my ability to do this."
